

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

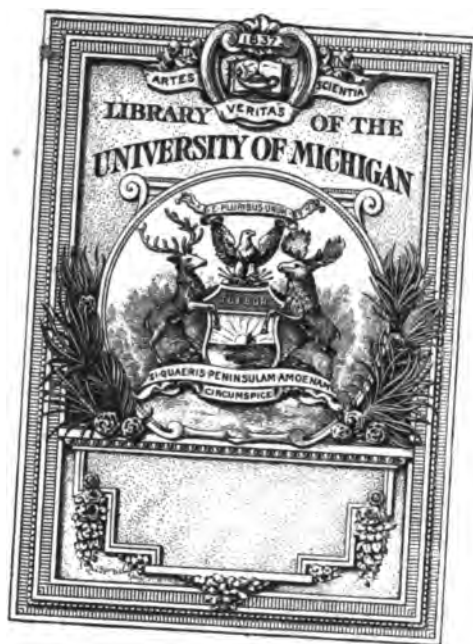

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

I.—Supreme Court of Judicature, England : Liability to Sutors -	2,764,744	1	10	432,845	15	9	2,331,898	6	1	<p>This liability represents money belonging to sutors of the Court of Chancery and standing to their credit in the books of the Pay Office of the Supreme Court. Prior to 1869 such money was invested in Government Securities, and the interest was charged with the payment of the Salaries, &c., and expenses of certain officers of the Court. In 1869, by the Act 32 & 33 Vict. c. 91, these charges were made payable out of the annual votes of Parliament, and the Government Securities representing the cash-book debt to sutors were transferred to the National Debt Commissioners and cancelled in 1870; the Consolidated Fund being thenceforward made liable for any claims arising in respect of the said debt to sutors.</p> <p>The nominal liability now remaining (2,331,884<i>l.</i> 8<i>s.</i> 9<i>d.</i>), which includes certain losses by fraud or error affecting sutors' money, for which the Consolidated Fund is contingently liable, is practically reduced to a considerable extent by the operation of investments of sutors' cash not required for current payments under the provisions of the Court of Chancery (Funds) Act, 1872; the assets now represented by these investments being considerably in excess of the liability in respect of them.</p>

PUBLIC LOANS.

THE accounts of the Local Loans, showing the amounts advanced, repaid, out standing, and lost, were given in the Finance Accounts down to the year 1891-92, inclusive. They were transferred in 1892-93 from the Finance Accounts to the Accounts relating to the Local Loans Fund. This transfer was made because when that fund was established in 1887 by the "National Debt and Local Loans Act, 1887" (50 & 51 Vict. c. 16), the Exchequer ceased to be directly concerned with loans to local authorities; and consequently the accounts relating to such loans belong more properly to the accounts of the Local Loans Fund than to the accounts of the Exchequer embodied in this volume.

There is, however, one loan outstanding which was made, not to any local authority, but to a Foreign Government, and consequently the liability for it was not assumed by the Local Loans Fund.

This loan, which was made to His Majesty the King of Sardinia, by virtue of the Acts 18 Vict. c. 17, and 19 & 20 Vict. c. 39, stood as follows on the 31st March 1902:—

* In 1859-64 the Imperial Government erected lighthouses in Fucas Straits and Esquimalt Harbour, undertaking one-half of the cost itself, while the Government of Vancouver Island undertook to repay the other half to the Imperial Government. The Government of Vancouver Island subsequently declined to meet its obligation. Vancouver Island afterwards entered the Canadian Union, and the Dominion Government has refused to recognise the obligation. This sum is, therefore, left outstanding, being due to the Imperial Government.

† The debt of 105,000*l.* was reduced by a sum of 974*l.* 12*s.* 1*d.*, disbursed out of Colonial Funds, on account of the Imperial Government, for the expenses of the Western Pacific High Commission, up to 31st March 1879. Arrangements were made in 1892 for the repayment of the balance of the whole debt by Fiji to the Imperial Government by an annual instalment of 1 per cent. In 1894 a liability of 11,864*l.* 6*s.* 7*d.* in respect of the Land Claims Commission was written off by the Treasury, and the annual instalments which had been repaid in respect thereof were transferred to the credit of the earlier debt of 105,000*l.*

‡ This amount was voted as an advance to the Colony, on the understanding that it was not to bear interest, and was to be repaid in such instalments as, looking to the financial condition of the Colony, the Secretary of State might from time to time direct.

§ To be repaid by the Gold Coast Government in such instalments as, looking to the financial condition of the Colony, the Secretary of State for the Colonies may from time to time direct.

** This amount will be refunded by the Samoan Government when the finances of the Island permit. The Governments of Germany and of the United States have each contributed one-third of the cost of the safes.

‡ Of this sum such amount as was for expenditure in connection with the Concessions Commission is ultimately to fall on Transvaal Funds, as also will certain further expenditure in connection with the same Commission incurred in 1901-2 amounting to 287*l.* 14*s.* 8*d.*

¶ This amount will be repaid out of the proceeds of the first loans issued by the Colonies.

†† This Loan is repayable by instalments within 10 years and to bear a charge of 4½ per cent. per annum for Interest on Principal outstanding.

‡‡ The Cretan Government has undertaken to repay the Loan by an Annuity of 5 per cent. per annum for Interest and Sinking Fund to continue for 31 years. The advance was made from the Treasury Chest Fund in anticipation of a Vote of Parliament in 1902-3.

CONSOLIDATED FUND.

REPORT of the COMPTROLLER and AUDITOR GENERAL, prepared in pursuance of the Provisions of the Act 29 & 30 Vict. c. 39, s. 21.

Issues in accordance with Statutes. 1. THE Issues from the Consolidated Fund shown in the Abstract Account have all been made in strict accordance with the provisions of the various Statutes by which they have from time to time been authorised.

I.—NATIONAL DEBT SERVICES.

Bank Balances of Issues for Dividends, &c. 2. Appended to the Account are Statements of the Banks of England and Ireland showing the amounts paid during the year 1900–1901 out of the sums issued to them from the Exchequer, for interest of the Public Debt, and for principal of Treasury Bills, together with the balances of such issues remaining unpaid at the commencement and close of the year.

Suspension of payment of capital of Terminable Annuities. 3. Under the provisions of Section 17 of the Finance Act, 1900 (63 Vict. c. 7), the payment of so much of the instalments of the Terminable Annuities created under the National Debt Act, 1883, the National Debt (Supplemental) Act, 1888 (Section 3), and the Finance Act, 1899, as was certified to be applicable to the repayment of capital, was suspended in the year 1900–1901. The amount charged under the head of Terminable Annuities, viz., 2,756,612*l.* 12*s.* 5*d.*, is accordingly less than it otherwise would have been by the sum of 4,540,771*l.* 9*s.* 4*d.*

Suspension of New Sinking Fund. Sinking Fund Annuity. 4. Issues in respect of the New Sinking Fund amounting to 6,519*l.* 18*s.* 2*d.* were also suspended in the year 1900–1901 under Section 16 of the Finance Act, 1900. The Sinking Fund Annuity of 15,547*l.* 5*s.* 0*d.* under the National Debt (Conversion of Stock) Act, 1884 (47 & 48 Vict. c. 23, s. 3), was issued in the year and applied to the purchase and cancellation of Consols.

In addition to the above issues from the Exchequer, the Finance Accounts show that payments amounting to 9,633,939*l.* 12*s.* 2*d.* have been made to the Local Taxation Accounts in the year 1900–1901 for duties collected by Imperial Officers for Local Authorities, but not passed through the Exchequer Account.

A further contribution of 37,030*l.* to the Local Taxation (Ireland) Account was provided by a Supplementary Vote (Class VII., Vote 5), and will be noticed in my Report on that Vote.

IV.—ISSUES TO MEET OTHER EXPENDITURE.

Repayable Issues. 6. The Issues under the Barracks Act, 1890; Telegraph Acts, 1892 to 1899; Uganda Railway Acts, 1896 and 1900; Naval Works Acts, 1895 to 1899; Military Works Acts, 1897 and 1899; and the Land Registry (New Buildings) Act, 1900, are all matters of separate Account and Report, and need not therefore be further noticed here.

The following Statement shows the Issues from and Repayments to the Consolidated Fund on account of the above Services :—

The total authorised Issue from the Exchequer under the Barracks Act, 1890, 4,100,000*l.*, has been reduced to 4,061,086*l.* 10*s.* 5*d.* by a sum of 38,913*l.* 9*s.* 7*d.* which has been realised by the sale of barracks land (*see* Section 8). The sum of 550,000*l.* issued under the same Act in the years 1890–91 and 1891–92 was charged as Expenditure, and is not, therefore, repayable to the Exchequer.

The amounts shown above in respect of authorised issues for Naval Works and for Military Works, are in addition to 4,209,472*l.* 4*s.* 4*d.*, and 2,473,216*l.* 1*s.* 6*d.* respectively, the Surplus Revenue of the years 1895–96 and 1896–97, referred to in paragraph 10 of my report of last year.

VI.—STATE OF THE NATIONAL DEBT.

9. I annex a Statement showing, in a summarised form, the position of the National Debt on 31st March 1901, as compared with the figures at the close of the preceding financial year. MEMORANDUM.

THIS Return is presented in obedience to the Order of the House of Commons of the 14th April 1902. It continues the Tables given in the Parliamentary Paper, No. 91, of 1901, for the Year 1900—1901. But for the purposes of convenience it also reproduces part of the figures given in the earlier Return, namely, those for the decennial period up to and including 1889—90 and those for the four years immediately preceding 1901—1902. For an explanation of the basis on which the figures for recent years have been compiled, reference should be made to the Memorandum contained in Parliamentary Paper, No. 313, of 1894, and to the "Financial Relations" Papers which have been issued from time to time (Nos. 93, 305, and 334 of 1893, 314 of 1894, 336 of 1896, 266 of 1897, 313 of 1898, 317 of 1899, 336 of 1900, 90 of 1901, and 256 of 1902).

PREFATORY NOTES.

I.

PART I. of this Return is an Account of the direct liabilities of the State outstanding at the close of each financial year since 1835-36.

It shows not only the amount of Funded Debt, the estimated capital value in Stock of Terminable Annuities, and the amount of the Unfunded Debt; but likewise any other liabilities, which may be regarded as proper additions to be made in a statement of the total indebtedness of the nation.

The Account also gives those Assets of the State which admit of being calculated, such as sums advanced out of the Exchequer and repayable, the estimated capital value of the Suez Canal Shares, and the balance in the Exchequer.

II.

Part II. of this Return is an Account of the total issues made in connection with capital liabilities in each year since 1835-36, which have been charged against the Revenue. The account, moreover, gives any receipts which are cognate to Debt service, and thus it shows the true charge in each year on the taxpayer in respect of the interest of the Debt and of repayments of capital. The details of these issues and receipts in 1901-1902 will be found in Appendix V.

The issues charged against the Revenue of the year do not, however, comprise all the Cash transactions affecting capital liabilities. Accordingly a further account is given in Appendix IV., which adds to those issues, (1) the amount of the Old Sinking Fund (if any) representing the surplus of the preceding year, (2) all sums taken out of the Exchequer balance which have been applied to Debt purposes, and (3) any other sums which, though not forming part of the Revenue, have gone to the discharge of Debt (like composition in respect of Stamp Duty and Land Tax Redemption). The same Appendix also shows the amount (if any) raised by creation of Debt, in order that the net result of the Debt transactions in Cash may be ascertained. In correspondence with the account of capital liabilities (Part I.), which states the amount of the Exchequer balance at the end of the year, supplementary columns are added to Appendix IV. to show by how much the balance has been increased or decreased in the year, and at the same time how far the receipts which have gone to increase the balance have been repayments involving a decrease of assets, and how far the payments which have gone to decrease the balance have been advances involving an increase of assets.

Notwithstanding that all such transactions are included in Appendix IV., it will be found that the amount by which the net liabilities are reduced does not correspond with the amount of money applied in redemption of Debt, less the amount (if any) raised by creation of Debt. In the first place, a given amount of Cash will cancel either a larger or a smaller amount of Stock, according as the Stock stands below or above par. In the second place, the full amount issued to the National Debt Commissioners in one year for redemption of Debt may not be actually so applied until the next year, as they do not always effect their purchases of Stock immediately on the receipt of the money. In the third place, the full consideration money for the Debt created in one year may not be received till after the close of that year.

III.

The other Appendices to the Return are further complements to the principal accounts (Parts I. and II.); namely:

1. Appendix I. which shows in detail the gross capital liabilities and estimated assets of the State for the latest year.

2. Appendix II. which shows in detail how the aggregate increases or decreases of the Funded Debt, the capital value of the Terminable Annuities, and the Unfunded Debt have been effected.

3. Appendix III. which is a statement of contingent or indirect liabilities of the State, which have, pursuant to Acts of Parliament, the guarantee of the Consolidated Fund behind them.

4. Appendix VI. contains brief notes on the principal operations of the Debt during the entire period to which the Return relates.

IV.

It will be seen from Part I. (p. 11) that the GROSS LIABILITIES of the State,	£
which amounted on the 31st March 1901 to - - - - -	705,723,878
were increased (on balance) in the succeeding twelve months to - - -	768,443,386
or by - - - - -	£. 62,719,508

This net increase of Liabilities which took place in 1901-1902 is to be explained as follows:—

1. FUNDED DEBT.	£.
The Funded Debt at the commencement of the year stood at - - - - -	551,182,152
and on the 31st March 1902 at - - - - -	609,587,248
There was therefore an increase of - - - - - £.	58,405,096
On the one hand Consols to the amount of - - - - -	60,000,000
were created under the Loan Act, 1901 (1 Edw. VII. c. 12): on the other hand Funded Debt was reduced—	
(1) By operation of Life Annuities and Annuities for Terms of years - - - - - £.	1,242,314
(2) By application of sums derived from Land Tax Redemption and Composition of Stamp Duty - - - - -	322,765
(3) By sundry means - - - - -	29,826
	1,594,905
Net increase (as above) - - - - - £.	58,405,096
2. TERMINABLE ANNUITIES.	
The estimated capital value of these Annuities stood on the 31st March 1901 at	61,677,469
and on the 31st March 1902 at - - - - -	*63,190,859
There was therefore a net increase of - - - - - £.	1,513,390
3. THE UNFUNDED DEBT.	
The Unfunded Debt stood on the 31st March 1901 at - - - - -	78,133,000
and on the 31st March 1902 at - - - - -	75,133,000
There was therefore a decrease of - - - - - £.	3,000,000
3,000,000 <i>l.</i> borrowed in aid of Ways and Means was repaid.	

* This figure represents the amount of Stock which would have to be created to meet the outstanding liability in respect of Terminable Annuities. The main reason for this increase is that the average price of Consols was higher in the calendar year 1900 than in 1901.

4. OTHER CAPITAL LIABILITIES.				£.
The other capital liabilities at the commencement of the year stood at - - -				14,731,256
And at the end of the year at - - - - - - - - - - - - - - -				20,532,279
There was therefore a net increase of - - - - -				5,801,023
On the one hand, additional borrowings in the year and accrued interest led to the following increases —				£.
(1) Telegraph Acts, 1892 to 1899—				
Borrowed in the year	-	-	-	671,500
Interest accrued thereon to 31st March	-	-	-	13,087
				684,587
(2) Naval Works Acts, 1895 to 1901—				
Borrowed in the year	-	-	-	2,588,000
Interest accrued thereon to 31st March	-	-	-	32,867
				2,620,867
(3) Uganda Railway Acts, 1896 to 1900—				
Borrowed in the year	-	-	-	710,000
Interest accrued thereon to 31st March	-	-	-	12,129
				722,129
(4) Military Works Acts, 1897 to 1901—				
Borrowed in the year	-	-	-	1,400,000
Interest accrued thereon to 31st March	-	-	-	23,012
				1,423,012
(5) Land Registry (New Buildings) Act, 1900—				
Borrowed in the year	-	-	-	130,000
Interest accrued thereon to 31st March	-	-	-	2,686
Additional interest accrued on advances of preceding year	-	-	-	757
				133,443
(6) Pacific Cable Act, 1901 —				
Borrowed in the year	-	-	-	784,600
Interest accrued thereon to 31st March	-	-	-	8,844
				793,444
TOTAL Increase - - - - -				6,377,485
On the other hand, by the operation of Terminable Annuities, the following liabilities were reduced, viz.:—				
(1) Russian-Dutch Loan Act, 1891	-	-	-	37,277
(2) Barracks Act, 1890	-	-	-	232,452
(3) Telegraph Acts, 1892 to 1899	-	-	-	125,515

(a) The Capital Value of all the Annuities in this column is computed in 3 per Cent. Stock, at Par, down to the 31st March 1858, inclusive.

* Exclusive of 368,000*l.* Exchequer Bills purchased for cancellation, but not formally cancelled.

† The Statement of Unfunded Debt at the close of these years is exclusive of certain Bills which, although not cancelled until the following years, were covered by Stock created for their conversion, and included in the Funded Debt.

‡ The As sets in the years ended 5th January 1848 and 1854 were reduced by the partial remission of several large loans, but in the former year the reduction fell far short of the increase caused by additional loans.

|| Including 790,000*l.* Ways and Means Advances outstanding.

¶ Including 1,000,000*l.* Ways and Means Advances outstanding.

† For the purpose of comparison, the following additions should be made to the Exchequer Balances (Col. 11), owing to there not being received within the year the full consideration money for Debt created, viz. :—

(a) The Capital Value of all the Annuities in this column is computed in 3 per Cent. Stock, at Par, down to the 31st March 1888, inclusive. Subsequently, in consequence of the passing of the National Debt (Conversion) Act, 1888 (51 Vict. c. 2), the valuation of the Annuities is based with reference to 2½ per Cent. Consols.

* Including 1,000,000*l.* Ways and Means Advances outstanding in the years ended 31st March 1869 and 1880.

† Had the full consideration money for the Exchequer Bonds created in 1875-76 for the purchase of the Suez Canal Shares been received before the 1st April 1876, the balance in the Exchequer on the 31st March 1876 would have been larger by 700,000*l.* (See Appendix IV, page 29, col. 9.)

§ The Assets in 1877-78, 1879-80, and 1881-82, were reduced by the deduction of a large accumulation of "Irrecoverable Loans," of which the abandonment was authorised in those years.

†† The Indian Government was released of its obligation to repay the loan of 2,000,000*l.* made in 1879.

NOTE.—A reference to Appendices II, and VI. will explain the principal variations in the Debt from year to year.

(*) From 31st March 1899, inclusive, the Capital Value of all the Annuities in this column is computed in 2½ per Cent. Consols. (See also Appendix I.)

† See Appendix VI., page 40.

§ Including 750,000*l.*, borrowed in aid of Ways and Means, outstanding on the 31st March 1894 but repaid on the 5th April 1894.

a Including 3,000,000*l.*, borrowed in aid of Ways and Means, outstanding on 31st March 1901, which was repaid in June quarter 1901.

¶ Subsequently to 1894 the deficiencies under these heads disappeared owing to the rise in the value of the securities constituting the Assets of the Funds. Any future deficiencies that may recur owing to fluctuation in the value of Stock will be considered as nominal or contingent liabilities, and be found noted in Appendix III., page 24.

|| See Appendix I. for details.

φ This balance includes 2,550,000*l.* received into the Exchequer on 30th March 1900, being the amount of the deposit and first instalment of the War Loan issued under Act 63 Vict. cap. 2 (Session 1900). As the securities to be created on account of the War Loan were to bear date 6th April 1900, the Loan finds no place in the National Debt Account of the year ending 31st March 1900.
†† On the one hand, this balance includes 3,000,000*l.* borrowed in aid of Ways and Means, which was repaid in June quarter, 1901, while on the other hand, had the full consideration money for the 11,000,000*l.* Exchequer Bonds, issued under Act 64 Vict. c. 1, been received before the 31st March 1901, the balance would have been larger by 3,229,890*l.* 19*s.* 1*d.*

NOTE.—A reference to Appendices II. and VI. will explain the principal variations in the Debt from year to year.

* In Column 4, interest on Local Loans is included from 1874-75 to 1896-97, both inclusive, and interest on the purchase-money of the Suez Canal Shares is included from 1876-77 to 1893-94, both inclusive. The redemption of the Debt created in connection with the purchase of the Suez Canal Shares having been completed in 1893-94, the receipts on account of the Interest and Dividend on the Shares are, consequently, not set off against the Debt charges from that date.

† For details see Appendix V., pages 22 and 33, and also Appendix A. to the Return relating to the charge on taxes moved for annually by Sir Henry H. Fowler.

Note.—The issues charged against the Revenue of the year do not comprise all the cash transactions affecting Capital liabilities. Accordingly, Appendix IV. is added, which brings together all sums applied in redemption of Debt, and also gives the amount (if any) raised by creation of Debt.

§ In 1888-89 special expenditure amounting to 2,009,958 £. was incurred in connection with the operations under the National Debt Conversion Act, 1883: and of this amount 2,009,958 £. was charged against the revenue of the year, the remaining million being borrowed, as shown in Column 8. Accordingly, had there been no such expenditure, the surplus revenue of the year, constituting the Old Sinking Fund, and thus applicable to reduce debt in 1889-90, would have been 2,798,640 £. instead of 788,982 £.

31 March 1892 (Continued.)	<p>In pursuance of the Act 54 & 55 Vict. c. 26, so much of the portion of the Russian-Dutch Loan, guaranteed by Great Britain, as was outstanding on the 30th June 1891 was paid off. The sum required to discharge the debt, viz., 519,939 <i>l.</i> 7 <i>s.</i> 11 <i>d.</i>, was borrowed from the National Debt Commissioners, on a terminable annuity of 43,553 <i>l.</i> 11 <i>s.</i> 3 <i>d.</i> calculated to repay the advance with 3 per cent. interest by the 6th July 1906. The capital value of the annuity of 43,553 <i>l.</i> 11 <i>s.</i> 3 <i>d.</i> on the 31st March 1892, was 531,359 <i>l.</i>, and it was thus larger than the amount of the Russian-Dutch Loan discharged, viz., 519,939 <i>l.</i>; the reason being that, as the first instalment of the annuity was not paid within the financial year, there was interest accruing for about nine months.</p> <p>Part of the annuities which were set up in 1883-84 (46 & 47 Vict. c. 54) in place of cancelled 3 per cent. Stock, and were re-adjusted in 1887-88 (50 & 51 Vict. c. 16), is held on account of Trustee Savings Banks. These annuities are valued among the assets of the Trustee Savings Banks at the value of the amount of Stock not yet replaced. On the 20th November 1890 that Stock was assumed to be 3 per cent. Stock, and valued accordingly. On 20th November 1891 the Stock was assumed to be 2½ per cent. Stock (pursuant to Act 54 & 55 Vict. c. 24) and valued as such. This change in the principle of valuation reduced the value of the assets of the Trustee Savings Banks by 1,242,000 <i>l.</i>, and correspondingly increased the liability of the Consolidated Fund.</p>	54 & 55 Vict. c. 26.
31 March 1893	<p>Under the National Debt (Conversion of Exchequer Bonds) Act, 1892, Unfunded Debt to the amount of 13,000,000 <i>l.</i> was cancelled, and the Funded Debt was increased by a similar amount by the creation in the Books of the Treasury and Exchequer of a Book Debt consisting of a charge upon the Consolidated Fund (Book Debt).</p> <p>The Unfunded Debt was reduced by the application of 1,064,497 <i>l.</i> 1 <i>s.</i> 4 <i>d.</i>, Old Sinking Fund, and 1,743,000 <i>l.</i> New Sinking Fund, in payment off of Treasury Bills.</p> <p>The sum of 535,000 <i>l.</i> was raised under the Barracks Act, 1890, by the creation of Terminable Annuities, the charge in respect of which is borne on the Votes for Army Services.</p> <p>The sum of 86,000 <i>l.</i> was raised under the Telegraph Act, 1892, by the creation of Terminable Annuities, the charge in respect of which is borne on the Vote for Post Office Telegraph Services.</p>	55 & 56 Vict. c. 26.
31 March 1894	<p>The new 3 <i>l.</i> 10 <i>s.</i> per Cent. Annuities created under Act 16 Vict. c. 23, amounting to 225,746 <i>l.</i> 6 <i>s.</i> 4 <i>d.</i>, and redeemable at any time after 5th January 1894, were paid off with New Sinking Fund.</p> <p>The balance of the New Sinking Fund, amounting to 1,600,845 <i>l.</i> 16 <i>s.</i> 2 <i>d.</i>, remained uninvested at 31st March 1894, in order to give effect to the proposals which were subsequently embodied in the Finance Act (57 & 58 Vict. c. 30).</p> <p>The sum of 680,000 <i>l.</i> was raised under Barracks Act, 1890, by the creation of Terminable Annuities, the charge in respect of which is borne on the Votes for Army Services.</p> <p>The sum of 160,000 <i>l.</i> was raised under the Telegraph Act, 1892, by the creation of Terminable Annuities, the charge in respect of which is borne on the Vote for Post Office Telegraph Services.</p> <p>The repayment in respect of the 4,000,000 <i>l.</i> Exchequer (Suez) Bonds created in 1876 was completed on 20th March 1894.</p>	53 & 54 Vict. c. 25.

TREASURY MINUTE, DATED 22ND NOVEMBER 1901.

My Lords have before Them the contract, dated the 12th October 1901, between the Postmaster-General, the Lords Commissioners of the Admiralty, and the Canadian Pacific Railway Company, for the conveyance of His Majesty's mails between Halifax (or Quebec) and Hong Kong, and for the hire and purchase of vessels as cruisers or transports.

This contract provides for an extension for five years from 7th April 1901 of the contract of 18th July 1889 between the same parties, the terms of which were laid before the House of Commons in the Treasury Minute dated the 18th July 1889 (House of Commons Paper No. 263 of 1889), and which received the approval of that House on the 16th August 1889.

The only variations of any importance introduced into the Agreement are as follows, viz. :—

Clause 10.—The Postmaster-General takes power to require the Company to receive and deliver the mails at Montreal instead of Halifax or Quebec.

Clause 42 (4).—The Company will provide for the transfer of the mails from rail to shipboard, and vice versâ, at Halifax, Quebec and Vancouver.

Schedule 2.

Numbers 9 and 10 (2 and 3) of the Admiralty clauses, providing for the conveyance of troops and stores, are omitted as unnecessary.

At the time when the contract of 1889 was made it was anticipated that the Canadian Government would before long secure a considerable acceleration of the Atlantic service. That expectation has not hitherto been realised, in spite of the efforts of the Canadian Government. The present extension of the contract is made to allow further time for the attainment of the object in view.

The total subsidy payable under the contract will, as before, be 60,000*l.* per annum, towards which the Canadian Government will contribute 15,000*l.* per annum.

The main provisions of the contract are recapitulated below.

POSTAL CLAUSES.

(2.) The service between Halifax or Quebec (according to the season) and Hong Kong will be one continuous and complete service at intervals of four weeks. Mails will be carried for any intermediate place at which the trains or vessels may call.

(6.) The vessels will call at Yokohama and Shanghai.

(7.) The periods of transit between Halifax or Quebec and Hong Kong will be within 684 hours from April to November, and within 732 hours from December to March, including stoppages.

(34.) In the event of purchase by the Admiralty of a vessel the Company will provide a substitute vessel for the Postal Service.

(35.) The subsidy will be 60,000*l.* per annum, subject to penalties.

(36.) The penalty for failure to start a boat or train at the appointed time is fixed at 500*l.*, and at 100*l.* for every 24 hours' delay.

(37.) The penalty for late arrival is fixed at 100*l.* for every 12 hours.

(40.) The Contract runs for five years from the 7th April 1901; it will be terminable on the 31st January 1905 if notice is given six months beforehand, and on payment of 7,500*l.*, by the Postmaster-General.

(45.) The Company may not underlet the Agreement or any part of it without the consent of the Postmaster-General.

ADMIRALTY CLAUSES.

SCHEDULE 2.

(9.) Small packages will be conveyed for the Admiralty at the lowest rate of freight charged by the Company on private goods of a similar character.

SCHEDULE 3.

(2.) The Company undertake to construct all new vessels engaged for the service under the supervision of the Admiralty, and to fit all their present fleet, with the exception of the "Tartar" and "Athenian," with gun platforms and other fittings required by the Admiralty, and to sell them to the Admiralty if required.

(3.) The vessels are to run $17\frac{1}{2}$ knots an hour on the measured mile, and 16 knots an hour on sea trial.

(4.) The Admiralty may hire the vessels, except the "Tartar" and "Athenian," at 20s. per ton per month for the first four months, and 17s. 6d. for any subsequent period. In the case of the "Tartar" and "Athenian" 15s. per ton per month only is to be paid. The Admiralty will provide and pay the crew in all cases.

(7.) The purchase price will be the value on the day of purchase with 10 per cent. for compulsory sale, and a further sum, to be settled by agreement, representing the cost of delivery on the North Pacific Station. The value on the day of purchase will be the cost price to the Company in the United Kingdom, less 6 per cent. per annum from the day of completion to the day of purchase.

(8.) A contract vessel sold to a British shipowner will remain subject to the terms of the agreement.

(9.) The Company undertake to employ, as far as possible, members of the Royal Naval Reserve.

(10.) The risk and expense of a vessel hired by the Admiralty will be borne by the Admiralty from the date on which the Admiralty provides the officers and crew.

SPECIFICATION AND RULES AS TO PLANT.

(1) In this specification the term “exchange subscriber’s circuit” means the wires and apparatus connecting a subscriber’s office or offices with a telephone exchange and the term “junction circuit” means the wires and apparatus which connect any two separate exchanges or an exchange and a prescribed post office.

(2.) All circuits whether exchange subscribers’ or junction circuits shall be metallic. Any necessary earth connections shall either be made at the centre of balanced resistances of high inductance bridged across the circuit or by means of appropriate electrical devices so that speaking circuits when in use shall be free from inductive or other disturbances. All circuits shall be so arranged that exchange subscribers shall be unable to overhear what passes on any other than their own circuits or those to which they are joined through.

(8) The use of iron conductors in any portion of a speaking circuit shall not be permitted.

(4) With the under-mentioned exceptions wires shall be laid underground but the distribution wires from selected points to exchange subscribers' offices may be either overhead open wires or underground as may be considered desirable. Open wires other than distributing wires may however be erected overground :—

- (a) Where power to execute underground work is unobtainable.
- (b) Where the number of wires required is insufficient to justify the cost of underground work regard being had to the subsequent cost of maintenance.

Where the Company can obtain underground way-leaves the Postmaster General will not consider open wires justifiable in cases where a line of poles carries or is intended to carry upwards of 25 circuits or 50 wires and he will regard underground wires as being more suitable for acquisition by the Post Office than overhead wires.

A line of poles extending less than a quarter of a mile from a distributing point will be considered as a distributing line. A line of poles in excess of this length will come under the limitations prescribed by the last paragraph.

Where overground conductors consist of cables the copper to be used shall have a conductivity of not less than 98 per cent. according to Matthiessen's standard of pure annealed copper that is to say the resistance of 60° Fahrenheit of a wire a square inch in cross sectional area shall not exceed .04318 of the standard ohm. The circuits in such cables shall have conductors of a minimum size of No. 20 standard wire gauge weighing 20.7 lbs. per mile.

(5) Where wires are placed underground—

- (a) Dry core cables of low electro-static capacity shall be used and the conductors shall fulfil the following conditions :—

The copper to be used shall have a conductivity of not less than 98 per cent. according to Matthiessen's standard of pure annealed copper that is to say the resistance at 60° Fahrenheit of a wire a square inch in cross sectional area shall not exceed .04318 of the standard ohm. For subscribers' circuits within half a mile of an exchange the conductors shall be not less than No. 22 standard wire gauge weighing 12½ lbs. per mile. Exchange subscribers' circuits beyond the half mile limit and junction circuits less than 5 miles in length shall have conductors of a minimum size of No. 20 standard wire gauge weighing 20.7 lbs. per mile. Junction circuits of more than 5 miles in length shall have conductors not less than No. 18 standard wire gauge weighing 36.8 lbs. to the mile.

- (b) All buried cables shall be efficiently protected by pipes or ducts of approved materials or by such other means as the Postmaster General may have approved before the cables are laid. Cables in subways or tunnels shall be supported in such a manner as to prevent fracture of the lead covering.

(6) Open wires erected overground shall comply with the following conditions:—

They shall be not less than No. 13 standard wire gauge weighing 36·8 lbs. to the mile for subscribers' circuits and for junction circuits less than 5 miles in length. For junction circuits exceeding 5 miles in length the wires shall not weigh less than 100 lbs. per mile.

(7) A thoroughly efficient method of calling the exchange and of signalling the close of a conversation shall in all cases be provided on every exchange subscriber's circuit and the calling and clearing signals shall be effective in all conditions and upon the longest circuits used in an area when connected together.

(8) Switch-jacks on multiple panels of local subscribers' sections shall be connected on the branching system unless otherwise authorised by the Postmaster General.

(9) Junction circuits connecting exchanges with prescribed post offices shall be provided with automatic signalling arrangements of a character approved by the Postmaster General and suitable for working in connection with his trunk circuits and shall be worked in accordance with such regulations as he may from time to time prescribe.

(10) The apparatus fitted at exchange subscribers' offices shall be efficient for trunk circuit communication and where separate batteries are provided at each exchange subscriber's office for speaking purposes the electro motive force shall not at any time fall below two volts and such apparatus shall be so fitted as to admit of a clearing signal being transmitted by the exchange subscriber to the Post Office trunk centre to indicate the close of a trunk conversation.

(11) With a view to avoid difficulty under the last two preceding clauses the Company shall at least six months before the opening of an exchange furnish the Postmaster General with diagrams illustrating both the exchange subscribers' circuit connections and the method by which it is proposed to actuate the signals on the junction lines at the Post Office trunk centre.

(12) Where an overhead electric light or electric traction system co-exists with any portion of the Company's London system and where such last-mentioned system is partially or wholly overground suitable safety devices including fuses and heat coils shall be provided in all circuits likely to be affected both at the exchange and at the exchange subscribers' offices.

(13) Efficient lightning protectors shall be provided on all circuits.

(14.) Proposals for the modification of the foregoing Specification will be considered by the Postmaster General or the Company (as the case may be).

This Specification does not apply to the existing plant of the Company nor to any plant of the Company now in course of construction. Notwithstanding anything contained in this Specification the existing plant of the Company may be added to so as to utilise it to the extent of its capacity, but such plant may not be extended otherwise than in conformity with this Specification.

1902.

[NOTE.—In the Editions issued previously to 1900–1901, the figures of this annual Return, were carried back to 1869–70. In order, however, to reduce its bulk, the first year given in the present Return is 1880–81; and, accordingly, if the figures for any of the earlier years are required, reference must be made to the Return No. 357 of Session 1900.

EXPLANATORY REMARKS.

THE Account of Exchequer transactions, which appears on the first pages of the Finance Accounts of the United Kingdom, constitutes the National Balance Sheet of each financial year. It gives, on the one side, the total receipts paid into the Exchequer as Revenue; and, on the other side, the total issues made out of the Exchequer to meet payments chargeable against Revenue.

The figures, however, include many items on both sides of the Account which are so closely connected with one another as to justify the set-off of the particular receipts against the corresponding payments or *vice versa*; and in this Return, for which Sir Henry H. Fowler has moved for some years, the set-off is (so far as is possible) made; the object being that the true cost of the Imperial Government, so far as it falls on the general taxpayer or the community at large, may be shown in broad detail over a series of years. The Return, in short, is an extension of the system now adopted for many years of appropriating extra receipts in aid of Expenditure; the result of which is to bring out smaller totals on both sides of the account.

Thus:—According to the Finance Accounts for 1901–2 the total	£.
Revenue (page 8) amounted to	- 142,997,999
and the total Expenditure chargeable against Revenue (page 9) to	- 195,522,215
The Expenditure, therefore, exceeded the Revenue by	- 52,524,216
In Sir H. Fowler's Return the Revenue (page 19) is set down at	- 127,152,614
and the Expenditure (page 27) at	- 179,676,830
bringing out the same result, viz., a deficit of	- 52,524,216

The difference, however, in the amounts of the Revenue and Expenditure as given in the two Accounts is	- 15,845,385
--	--------------

Before this difference is accounted for, it is necessary to explain the basis of the Return, and to reconcile the figures which it contains with those in the Finance Accounts.

Part I. gives as *Public Income* :

1. The amounts received into the Exchequer in respect of Revenue derived from taxes.
2. The amounts received into the Exchequer in respect of Revenue derived from sources other than taxes, viz. :—
 - (1.) Postal and Telegraph Revenue, together with such extra receipts as are cognate to Postal Services, *less* the Expenditure incurred on those services, as represented by Exchequer issues on account of Post Office, Telegraph, and Packet Services.
 - (2.) Revenues of the Crown.
 - (3.) Interest and Dividends on the Suez Canal Shares belonging to His Majesty's Government.

The

The amounts received into the Exchequer under the head of Miscellaneous Revenue (less the receipts cognate to the Postal Services), and the receipts in respect of loans, are set off against the heads of Expenditure to which they most appropriately belong.

Part II. classifies *Public Expenditure* under certain specified heads, viz :—

1. National Debt Services.
2. Naval and Military Expenditure.
3. Civil Services, grouped under three main sub-heads, viz :
 - (1.) Civil List and Civil Administration.
 - (2.) Elementary Education.
 - (3.) Charges transferred at different times from Local to Imperial Funds, and other Expenditure deemed to be of a local character.
4. Customs and Inland Revenue (Collection of Taxes).
5. Special Services (if any), which do not fall under the other heads.

Under this classification, all charges belonging to each head or sub-head are brought together; that is, those which are included among *Consolidated Fund Services* and as such are permanent charges, as well as those which are included among *Supply Services* and as such are charges voted annually. From the gross totals so arrived at under the prescribed heads there are deducted the items of receipt which can properly be set off against those totals.

It should, however, be stated that the classification of Expenditure proceeds on broad lines only. It does not attempt to be exhaustive. For instance, the charges borne on Civil Votes in respect of buildings, stationery, &c., for the Revenue Departments are not eliminated from expenditure on civil administration, and transferred to the services to which they more properly belong. Indeed, a detailed classification would in many instances be impossible; for it could only be done with precision when the final accounts of the various Votes are rendered, and they are not yet rendered for the past year when this Return is issued. Moreover, numerous transfers of charges from one service to another would greatly complicate the Return.

The figures in this Return and the Finance Accounts for the latest year (1901–2) have next to be reconciled.

PART I.—INCOME (p. 19).

The figures relating to Revenue derived from Taxes are identical in both Returns; so also are those relating to Crown Lands.

It is only with respect to Postal Services that explanation on the Income side is needed.

TOTAL in Sir H. FOWLER'S RETURN (p. 27) - - -	<hr/> 2,954,948

The smaller totals in both sides of the Account of Sir H. Fowler's Return, as compared with the National Balance Sheet in the Finance Accounts, can now be accounted for. It is due to two main causes :—

1. The setting off the postal expenditure against the postal receipts,	£.
viz. (as above at p. 4): - - - - -	13,832,956
2. The setting off of miscellaneous receipts against corresponding payments, viz. :—	£.
(a) National Debt Services (p. 5) - - -	226,980
(b) Naval and Military Expenditure (p. 5) - -	30,050
(c) Civil Services (pp. 6 and 7) - - -	1,755,347
(d) Customs and Inland Revenue (p. 7) - -	52
	<u>2,012,429</u>
TOTAL (as above on p. 3) - - -	<u>15,845,385</u>

This Return, as the heading of it shows, is a Return relating to payments into the Exchequer on account of Revenue, and to issues out of the Exchequer on account of Expenditure charged against Revenue.

But for the purposes of comparison with years prior to 1888–89 it is necessary to include separately—

(1.) On the Receipt side the Revenue which, in accordance with arrangements explained in earlier issues of this Return, is diverted from the Exchequer in relief of local charges, and

(2.) On the other side, the Expenditure which is met out of such Revenue by Local Authorities in England, Scotland, and Ireland, and which may be measured by the amounts thus placed at their disposal.

E. W. HAMILTON.

† The last Grant from the Exchequer in aid of Maintenance of Pauper Lunatics was for the year to 31st December 1897. Subsequent Grants for Maintenance became a Charge, under Act 61 & 62 Vict. c. 37, upon the Income of the Local Taxation Account. The first contribution from the Exchequer to the Local Taxation Account was for the financial year beginning on the 1st April 1898.

‡ By the substitution of "Licences" for Grants in Aid under Act 51 & 52 Vict. c. 41 the local authorities in Great Britain derived some advantage, and in order that Ireland, to whom local government was not then extended, might secure an equivalent advantage a grant of 40,000*l.* was made. In 1890-91 the grant was applied in relief of the liabilities incurred by Boards of Guardians in Ireland in carrying out the Labourers' Cottages (Ireland) Acts, 1883 and 1885. Since 1891 the Exchequer Contribution of 40,000*l.* has been made from the Consolidated Fund under the Land Purchase (Ireland) Act, 1891 (54 & 55 Vict. c. 48).

* A net sum of £48,628 17s. 6d. received by way of equality of exchange has been paid over to the National Debt Commissioners in accordance with 61 Vict. c. 5, section 1, sub-section 4.

† The proceeds of sale of old building materials have been appropriated in aid of the Votes for Art and Science Buildings and Public Buildings respectively.

‡ This sum does not include the cost of the land belonging to the Crown, which forms the largest part of the site, and which was valued at £404,878. Part of the purchase money in respect of this land is being paid by way of terminable annuity out of the Consolidated Fund.

§ The proceeds of sale of old building materials have been carried to a Suspense Account pending a final adjustment of account with the Post Office Savings Bank Funds.

¶ The Vendor of a house on the site received, in part payment for his interest, the lease of No. 3, Whitehall Place on advantageous terms. This arrangement involves a net charge of £237 per annum on the Public Buildings Vote from which the gross rent is payable until 1919.

Rent is paid from the Public Buildings Vote in respect of No. 14, Whitehall Place, which formed part of the Whitehall site, and a sub-rent is received by the Board in respect of the same premises. The Board are owners of the freehold, and hold the premises as sub-lessees of the original lessee. The net charge on the Vote in respect of this house is £340 per annum.

¶ Sir J. Taylor receives from Sub-head 1 commission for acting as joint Architect of the War Office, and a salary from Sub-head 6 for superintendence in connection with services specified in Sub-heads 2, 3, and 4.

PUBLIC OFFICES SITES, AND PUBLIC BUILDINGS EXPENSES.

REPORT of the **COMPTROLLER** and **AUDITOR GENERAL** on the Accounts prepared in pursuance of the **PUBLIC OFFICES (ACQUISITION OF SITE) ACT, 1895**, Session 2 (59 Vict. c. 5); the **PUBLIC OFFICES (WESTMINSTER) SITE ACT, 1896** (59 & 60 Vict. c. 23); the **PUBLIC OFFICES (WHITEHALL) SITE ACT, 1897** (60 & 61 Vict. c. 27); and the **PUBLIC BUILDINGS EXPENSES ACT, 1898** (61 Vict. c. 5), showing the Moneys issued out of the Consolidated Fund, the Moneys borrowed and the Securities created in respect thereof, the disposal of Moneys issued to the National Debt Commissioners for temporary investment, and the Expenditure, under those Acts, for the Year ended 31st March 1901.

PUBLIC BUILDINGS EXPENSES ACT, 1898.

The total sum of 2,550,000*l.* authorised to be issued by the Public Buildings Expenses Act, 1898, has been issued, as stated in the Reports on this Account for the years 1898-99 and 1899-1900, partly to the Commissioners of Works, and partly to the National Debt Commissioners for temporary investment.

The issues from the Investment Account to the Commissioners of Works in the year 1900-1901 amounted to 227,842*l.* 12*s.* 9*d.*; and the expenditure amounted to 214,843*l.* 1*s.* 11*d.*, making, with the previous expenditure, a total of 519,151*l.* 8*s.* 11*d.* to 31st March 1901. The balance of cash in the hands of the Commissioners of Works on 31st March 1901 was 18,691*l.* 3*s.* 10*d.*

INVESTMENT ACCOUNT.

The result of the investments made by the National Debt Commissioners under Section 1 (2) of the Public Buildings Expenses Act, 1898, has been the receipt, between the 28th May 1898, and the 31st March 1901, of 96,865*l.* 11*s.* 9*d.* as dividends on Consols, and of 7,763*l.* 4*s.* 8*d.* as interest on Treasury Bills, making a total sum of 104,628*l.* 16*s.* 5*d.*, which, under Section 1 (2) is to be applied for the purposes of the Act. The balance held by the National Debt Commissioners on 31st March 1901 amounted to 1,923,139*l.* 6*s.* 1*d.* Securities, which consisted of 1,883,139*l.* 6*s.* 1*d.* 2½ per cent. Consols and 40,000*l.* Treasury Bills.

STATEMENT IV.—EXPENDITURE.

Whitehall Site.

As stated in a footnote (¶) under Head 1, Whitehall, certain rents in respect of property on this Site are charged on the Vote for Public Buildings.

These rents of 237*l.* per annum (until 1919) and 340*l.* per annum (until 1921) are in addition to the actual cash expenditure for the purchase of the Site, which, as shown by this Account amounted to 546,905*l.* 17*s.* 3*d.*

Westminster Site.

The expenditure on the Site to 31 March 1901, as shown under Head 2, has been 555,639*l.* 17*s.* 3*d.*, which is in excess of the total amount of 550,000*l.* provided by the Public Offices (Acquisition of Site) Act, 1895, Session 2, and the Public Buildings Expenses Act, 1898. The excess, however, is covered by the amount of dividends and interest referred to above.

In reply to an inquiry, I have been informed that all the lands, houses, and buildings described in the deposited plans and book of reference referred to in the Preamble of the Public Offices (Westminster) Site Act, 1896, have now been acquired by the Commissioners of Works.

Superintendence.

The late Principal Surveyor of the Office of Works, whose salary is charged under Head 6, has been associated as Architect of the New War Office with the son of the late Architect, and has received during the year 1900-1901 extra remuneration at the rate of 1,100*l.* per annum under Head 1.

NOTE.

The Receipts out of which the expenses of the Ordnance Factories Department are met have been excluded from the Return. So far as the expenditure undertaken by the Department is on public account, it is met out of the funds at the disposal of the War Office and the Admiralty; therefore, to include the money received from those Departments would be to reckon it twice over. The other sums received by the Ordnance Department, being for services rendered to India and the Colonies, are not receipts cognate to expenditure incurred by the State, and, as such, cannot properly be considered to be "Public Revenue."

PUBLIC WORKS LOANS BILL, 1902.

STATEMENT OF PARTICULARS of LOANS of which the Balances Outstanding are proposed to be Remitted or Written Off (in Whole or in Part) from the Assets of the Local Loans Fund.

LOAN BY THE PUBLIC WORKS LOAN COMMISSIONERS.

(1.) *Loan under the Harbours and Passing Tolls Act, 1861. (24 & 25 Vict. c. 47.)*

Name of Borrower.	Date of Loan.	Purpose of Loan.	Amount of Loan.	Amount Repaid.	Amount of Principal Outstanding.	Amount to be remitted.	Observations.
British Fisheries Society	1868-1873.	Constructing a breakwater, and other works in connection therewith.	£ 62,000	£ s. d. 4,178 6 10	£ s. d. 57,821 13 2	£ s. d. 57,821 13 2	The successors of the British Fisheries Society are the Wick and Pulteney Harbour Trustees. The sum in question was written off the assets of the Local Loans Fund in 1887. But the existence of the debt prevents the Harbour Trustees from raising funds for further improvements, and it is therefore proposed it should be extinguished.

(2.) *Loan under the Labouring Classes Dwelling Houses Act, 1866, (29 & 30 Vict. c. 28.)*

Name of Borrower.	Date of Loan.	Purpose of Loan.	Amount of Loan.	Amount Repaid.	Amount of Principal Outstanding.	Amount to be written off.	Observations.
Richard Lawrence Cosh	1887-8.	The erection of certain dwellings for the labouring classes in the parish of St. Dunstan, Stepney.	£ 12,000	£ s. d. 148 15 0	£ s. d. 11,851 5 0	£ s. d. 3,101 5 0	The buildings on the security of which the loan was made to Mr. Cosh were to cost 19,571 <i>l.</i> , the land being held for a term of 78 years subject to an annual ground rent of 16 <i>5<i>l.</i></i> . The repayments fell into arrear before the end of 1888. The Public Works Loan Board consequently entered into possession, and after managing the dwellings for some time through agents, determined after consultation with the Surveyor of the Office of Works to sell for a sum of 8,750 <i>l.</i> . This course was likely to involve less loss than if the Board were to continue to manage the dwellings themselves. The high expenses of agency and necessary reductions in rents reduced the net receipts to a figure insufficient on the average to pay interest at 4 per cent. on the loan apart from repayment of capital. Treasury sanction was obtained for the sale, and it is proposed to write off the balance (3,101 <i>l.</i> 5 <i>s.</i>) as irrecoverable.

LOANS BY THE COMMISSIONERS OF PUBLIC WORKS, IRELAND.

(1.) *Loans under the Landed Property Improvement (Ireland) Act, 1847 (10 Vict. c. 32).*

(Loans made to owners in fee or of a lesser estate, and to tenants holding under a lease for lives, of which at least two are surviving, or for [unexpired terms of not less than 25 years. Prior to the passing of the Public Works Loans Act, 1889, the Board's charge on the land in respect of a loan to a tenant was destroyed by the determination of his tenancy. The Act of 1889 made the loan continue to be a charge on the landlord's estate, but only to the extent of the value of the improvement at the time when the borrowing tenant's interest came to an end. In case of dispute this value is assessed by the Commissioner of Valuation.)

Name of Borrower.	Date of Loan.	Purpose of Loan.	Amount of Loan.	Amount Repaid.	Amount of Principal Outstanding.	Amount to be written off from Local Loans Fund.	Observations.

Two sums of 2l. 6s. 6d. lodged in respect of costs recovered remaining due to the deceased solicitor have been applied in reduction of the 7l. 16s., leaving 3l. 3s. due, the principal in which is 2l. 10s.
Honora Cahill -	14 June 1883 -	Drainage, liming and fencing.	60	1 7 2	58 12 10	31 14 9	The borrower in this case was evicted owing large arrears of rent. The landlord thereupon became liable under the Public Works Loans Act, 1889, for the repayment of the loan to the extent of the improved value of the lands. The sum to be written off represents principal in arrear due by borrower, and irrecoverable, amounting to 11l. 0s. 6d., together with the difference 20l. 14s. 3d. between the capitalised value, 47l. 12s. 4d., of the annual sum originally payable and 26l. 18s. 1d., the part of the instalment now payable by the landlord as fixed by award of the Commissioner of Valuation. Proceedings against borrower for recovery of arrears resulted in a return of "nulla bona" by the sheriff, and she is now deceased.

In 1894 the tenant-purchaser was evicted, and portions of the land subsequently sold to adjoining owners for 133 <i>l.</i> 2 <i>s.</i> 10 <i>d.</i> The remainder, however, was unsaleable, even with the annuity proportionately decreased, owing to waste and dilapidations to the holding, buildings, and fences during the late tenant-purchaser's occupancy. An offer to take on lease at 14 <i>l.</i> per annum has, therefore, been accepted, and it is proposed to write off the sum of 470 <i>l.</i> 16 <i>s.</i> 7 <i>d.</i> , and pay the rent to the Exchequer under the National Debt and Local Loans Act, 1887, section 15 (2).

F. L. O'Callaghan,

UGANDA RAILWAY ACTS, 1896 and 1900.

REPORT of the COMPTROLLER and AUDITOR GENERAL upon the ACCOUNT prepared under the provisions of the UGANDA RAILWAY ACTS, 1896 and 1900.

Fifth Account.
Delay in rendering Account.

1. THE present is the Fifth Account of Expenditure under the Uganda Railway Acts.
2. Owing to the absence in Mombasa of the Accounting Officer, this Account was not received in my department until the 18th April 1902.

PROVISION FOR FURTHER EXPENDITURE.

Increase of authorised issue.

3. By Section 1 of the Uganda Railway Act, 1900 (63 & 64 Vict. c. 11), the amount authorised to be issued by Section 1 of the Uganda Railway Act, 1896 (59 & 60 Vict. c. 38), was increased from 3,000,000*l.* to 4,930,000*l.*

ISSUES FROM CONSOLIDATED FUND.

Issues from 1896-97 to 1900-1901.

4. The sum of 1,060,000*l.* was issued from the Consolidated Fund in the year 1900-01, making, with sums issued in the years 1896-97, 1897-98, 1898-99, and 1899-1900, a total issue to the 31st March 1901 of 4,060,000*l.*, out of the total authorised issue of 4,930,000*l.*

Towards providing for this total issue, sums amounting to 3,830,000*l.* were borrowed from time to time from the National Debt Commissioners, on the security of terminable annuities of 7,462*l.* 15*s.*, 128,322*l.* 10*s.*, and 79,263*l.* 10*s.* payable out of moneys annually provided by Parliament, all of which expire on 15th November 1925. The balance of 230,000*l.* has also been borrowed from the National Debt Commissioners, on the security of a terminable annuity created since 31st March 1901, for the first payment of which provision has been made in the Estimates for 1902-03 (Class V., Vote 2).

EXPENDITURE.

Expenditure in 1900-01. Total expenditure to 31st March 1901

5. The gross expenditure on the railway in the year 1900-01 was 1,111,439*l.* 11*s.* 8*d.*, from which various receipts, amounting to 56,664*l.* 8*s.* 2*d.*, and consisting mainly of the excess of receipts over expenditure on traffic account, were deducted, leaving a net expenditure during that year of 1,054,775*l.* 3*s.* 6*d.*

In the entire period from the commencement of the railway to the 31st March 1901, the gross expenditure was 4,196,149*l.* 13*s.* 3*d.* The total receipts during that period amounted to 89,917*l.* 2*s.* 6*d.*, and a sum of 20,000*l.* having been provided for by Vote in 1895-96, the total net expenditure, chargeable upon moneys provided under the Uganda Railway Acts, 1896 and 1900, is 4,086,232*l.* 10*s.* 9*d.*

The net expenditure has exceeded the issues from the Consolidated Fund by 26,232*l.* 10*s.* 9*d.*, which sum has been temporarily met out of balances in the hands of the Accounting Officer in East Africa.

Unallocated expenditure.

6. The credit of 67,717*l.* 13*s.* 5*d.* to the head "Unallocated expenditure" in the year to 31st March 1901 arises from the fact that sums allocated to various heads of expenditure exceeded the total amount charged to "Unallocated expenditure" during the year. On 31st March 1901 the balance of expenditure remaining to be allocated was, as shown by the Account, 200,199*l.* 3*s.* 8*d.*
